

FilterBox 10A Plus

Automatically cleaned for light to medium dust & fume applications.

FilterBox 10A Plus

When mobility, flexibility and a compact footprint is key, a mobile solution is often the best way to avoid contaminant exposure. Nederman FilterBox range of mobile dust and fume extraction units are easy to move around your factory to wherever the extraction is needed.

The FilterBox 10A+ is equipped with a 10 ft, 6" NEX-MD extraction arm with spark protector and a N24 fan for a maximum air flow capacity of 600 CFM (1 000 m³/h). The nanofiber media technology utilized in the extra large 183 ft² (17 m²) cartridge is ideal for welding. It offers significant performance advantages like higher efficiency (MERV 15) and surface loading properties which results in more effective filter cleaning and longer cleaning intervals. Advantages that will impose benefits in terms of filter life, productivity and lower cost of ownership.

The unit has an advanced filter control system indicating the pressure drop with a series of LED's as well as on the LCD display. When the air flow is too low an aural alarm precedes the automatic, motorized compressed air cleaning sequence. An integrated silencer reduces noise from the fan and outlet air. Additional protection from harmful particles is provided if a HEPA filter is installed (optional). FilterBox 10A+ is available as a mobile unit on wheels but can be fixed mounted with an accessory kit.

Note! FilterBox is not for use in environments where combustible dust or gases are present, and it is not for use in filtering combustible dust or gases.

- Automatically operated filter cleaning with compressed air for long filter life.
- LCD panel with operating status and menu system for parameter setup and settings.
- Automatic damper preventing dust from leaking out while cleaning.
- Dust free filter replacement and emptying of dust bin.
- MERV 15 rated filter ASHRAE Standard 52.2, 2017, third party tested.

Approved for welding fumes category W3 according to EN 15012-1, third party tested.

Product name	FilterBox 10A Plus
Noise level (dB(A))	66
Protection class	IP 54
Filter efficiency (%)	99,9
Installation	Indoor
Material	Casing in rotomoulded plastic
Dustbin volume (gal)	4
Extraction arm diameter (in)	6

FilterBox 10A Plus

Airflow (CFM)	600
Filter Area (ft ²)	183
Filter type	Cartridge
Number of filter elements	1
Filter material	Nanofiber
Electric plug	Without
Mounting	Mobile
Filter cleaning method	Compressed air
Note	Filter class F9 (EN779), MERV 15 (ASHRAE 52.2)
Filter Area (ft ²)	

FilterBox 10A Plus
