D20 - Data Cable Reel

Smart network access

Smart and safe

SAFETY

DURABILITY

SMARTNESS

STABILITY AND SECURITY

A reliable network connection is an essential part of every company's infrastructure. Although a wireless connection is a good complement, for maximum speed, stability and security, a fixed connection is still the best option. But you already know that. Now we would like to tell you about

How Nederman D20 handles the cabling of your network access points

D20 is a retractable reel with Cat.7 ethernet cable that keeps the cabling properly recoiled. Whenever needed, a simple pull makes the cable available. That brings a lot of benefits to your installation and work environment:

SAFETY

Eliminate the risk of accidents with cables on the floor.

ERGONOMICS

Cables always within reach.

LESS WEAR AND TEAR

Reduce interruptions due to damages to exposed cables.

ORGANIZATION

Organized workspace brings more efficiency and productivity.

STABLE AND SECURE

Cat7 cable with individually shielded contactors and high performance sliping

SMART DESIGN

Simple and easy usage and servicing

DURABLE

Resistant composite material and high quality components

SAFE

Spring, sliping and electronics components properly secured

D20 Data Cable Reel

Data transfer speed	1Gb
Cable category	Cat7
Distribution cable	12m with RJ45
Inlet cable	1,5m with RJ45

The image features the Nederman logo in a blue, italicized font on a white background in the top left corner. The rest of the top half of the page is a scenic photograph of a person in a white shirt and blue shorts running along a rocky shore next to a large lake. The person is carrying a bright orange jacket. In the background, there are green, mountainous hills under a blue sky with white clouds.

Nederman

Count on us

Nederman has developed and manufactured high quality, retractable hose and cable reels for more than 70 years. Our hose and cable reels are used all around the world and can be found in every type of industry.

The reels provide highly efficient, easy-to-use and economical solutions for hoses and cables management in a wide variety of applications.

Nederman is a world-leading environmental technology company. We filter, clean and recycle to create eco-efficient production in demanding industrial surroundings.

For more than 75 years, Nederman has developed, manufactured and installed products and solutions to reduce the strain on the environment and improve working conditions in numerous industries.

Our products and systems have been ground-breaking in industries such as machining, metal fabrication, mining, automotive, composite manufacturing, food, pharmaceuticals, woodworking and many others.
