

Exhaust Nozzles

High temperature resistant rubber and metal exhaust hoses

Nederman offer an extensive range of robust rubber and metal vehicle exhaust extraction nozzles to accommodate various types of vehicles and systems including European standard EURO 6 engines. Adjustable test funnels with special design to handle large volumes of hot exhaust from vehicles in inspection centres for example. Also available with floor stand and for vertical exhaust pipes. The adjustable floor stand accommodates most exhaust pipe positions and designs.

- Easy manual connection and disconnection of the exhaust nozzles
- Well proven nozzles with a soft capturing hood that protects employees and vehicles
- The nozzles are resistant to high exhaust temperature - up to 150°C (300°F) for rubber nozzles and up to 400°C (750°F) for metal nozzles, in normal use.
