

DUAL-Silencer for FM fans

DUAL-silencer for enclosure of FM fan motor and the top of the fan case

The DUAL-silencer encloses the fan motor and the top of the fan case. It may be fitted to any FM unit and take the place of a conventional in-line silencer, with the added benefit of reducing breakout noise from the fan.

The DUAL-silencer is available in three sizes, to fit FM600 series, FM800 series fan and the FM1000 fan.

Description

The DUAL-silencer is made of 2mm galvanized steel.

The grille may be fitted with a rain cover or replaced by a flanged outlet. These items are interchangeable and are clipped into place on the silencer.

Product name	DUAL-Silencer for FM fans
Further technical data	Typical noise level at 1m from unit, 1 m above floor level with air grille. FM600: 74 dB(A) FM800: 75 dB(A) FM1000: 77 dB(A)
