

Platform for FM filter

Platforms for every FM filter size can be delivered

Platforms for every FM filter size can be delivered. The platform is very wide.

Description:

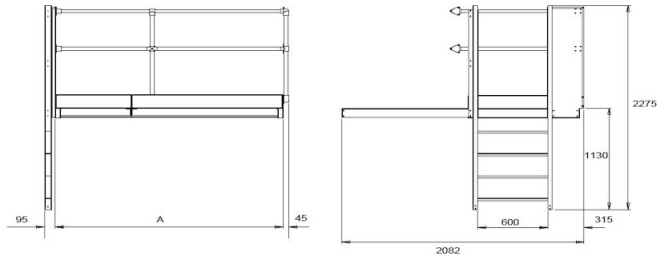

The platform is made of galvanized steel plates. The ladder can be mounted either at the left or at the right gable. The railing is made of 1" galvanized steel tube. In connection with the mounting of the platform the legs of the FM filter must be mounted along the front edge of the platform. The foundation must fit the dimensions of the platform and the filter.
