

600A EX

A Powerfull stationary dustcollector

600A EX

A Powerful stationary dustcollector, excellent high vacuum for suction over long horizontal and vertical distance.

You can choose a dustcollector with bigbagholder and counterweight discharge valve or a dustcollector with a manual discharge valve. Equipped with efficient and selfcleaning bag filters.

600A EX is category 2GD equipment according to directive 2014/34/EU. This means that it may be placed in areas classified as zone 21 or 1 according to directive 1999/92/EC. However, 600A EX may not be used to vacuum combustible material; they are only for use with non-combustible dusts. This is since they lack a protection system to limit the effects of an internal explosion, hence the X in ATEX marking.

ATEX approved equipment: II 2GD c IIB 60°C (T6) X
