

BenchTop Extraction Arm FX2 100 ESD/EX

The best and most cost-efficient solution for extraction of hazardous airborne contaminants, in applications where small, flexible and easy-to-use arms are required.

Nederman FX2-armer er laget av lette, anodiserte aluminiumsprofiler med to eller tre justerbare friksjonsledd i kompositt. Styrke og holdbarhet i kombinasjon med lett justering gjør de velegnet i mange miljøer. Spesielt egnet for bruksområder hvor små, fleksible og brukervennlige armer er ønskelig. Armen er utviklet for bruk i elektroniske miljøer der det er fare for elektrostatiske utladninger. ESD/EX-modellen kan også brukes for visse applikasjoner i eksplosjonsfarlige områder. Anbefales for bruk i sone 1,2, 21 og 22

- Optimal efficiency and low noise provides safe and quiet working environment
- Ceilings, walls and floors or fixed to worktops mountings and cut2fit extension profile gives maximum installation flexibility
- The two outermost arm joints can rotate and swivel through 360°, which gives the unique maneuverability
- The lean, smooth and aesthetic design allows arms to fit in well in any environment without compromising its durability and reliability
- Highly integrated products that save customers' time and costs, as well as providing the reliability and functionality to deliver a better performance
