

High Vacuum Pipes

High vacuum pipes for a wide range of applications.

Galvanised steel pipes, used as main pipes.

Can be used for:

-
- Extraction of fumes from welding torches.
 - Extraction of grinding dust directly from the handheld grinding machine thanks to our range of manifolds that matches most handheld machines on the market.
 - Cleaning of floors and machines etc. with our wide choice of accessories.
 - Transport of large volumes of material which may be both heavy and abrasive.
