

FilterCart Advanced

FilterCart Advanced+ mobile filter unit for intermittent to light duty welding and extraction applications.

Often used for MIG welding, TIG welding and other GMAW methods with light to medium fume generation, the FilterCart Advanced+ is a light-weight, portable and easy to maneuver dust and fume extractor with a warning signal when the filter is full. It includes an easy-to-position Original extraction arm with an extended working range, thanks to the 10 ft. (3 m) long arm. The arm is already fitted to the unit enabling a fast and easy setup. The disposable Nanofiber filter offers both significantly longer filter life and higher efficiency than previous versions of the FilterCart.

- Long lasting, disposable Nanofiber filter with large filter surface of 30 m² (323 ft²).
- Filter efficiency F9 (EN779), MERV 14 (ASHRAE 52.2)
- HEPA 13 filter optional available.
