

FilterBench Downdraft Table with carbon filter

A self-contained downdraft table used for extraction and filtering of dust and odour.

The Nederman Filterbench Carbon range of downdraft benches are designed to control airborne particulate and odour arising from gluing, de-greasing, painting and similar applications. The FilterBench Carbon is available in three different sizes. Easy to use and always with extraction at hand. The FilterBench Carbon should not be used in an environment with danger of explosions or for dust in explosive concentrations. The FilterBench should not be used for hot or spark generating processes such as welding fumes or metal grinding.

- Easy to use and always with extraction at hand
- Pre-filter (G4) and carbon filters as standard
- Simple on/off push button control making the product easy to understand and operate
- Fan inverter included as standard making it possible to optimize air flow and minimize energy consumption
- Castors with swivel and brake included as standard making the product easy and safe to move and position
