

QFS duct

QFS (Quick Fit Sealed) ducting offers a complete range of diameters and accessories for easy-to-fix professional leak free for i.e. oil mist installations.

QFS duct

- ✓ QFS for fast installation with no special tools, no painting, flexible working
- ✓ Easy to assemble installation components
- ✓ Neat slip duct connections to adapt and adjust ducting on site during installation
- ✓ Laser welded straight ducts for smoother surface and enhanced leak resistance
- ✓ Prevent leakage on the floor, decreases slippery surfaces

Manufactured from galvanised steel or stainless steel with laser welded seams, which have smoother internal surfaces and provide greatly enhanced leak resistance, QFS ducting offers an unbeatable solution for all general purpose dust and oil mist extraction duties. The Quick-Fit™ clip features a generously dimensioned sealing gasket held firmly in place by positive overcentre clamping action over the rolled collars at the duct ends to be joined. For added security, a locking pin may be inserted.

For leak free QFS installations use QF laser welded straight duct.
