

Afzuigkit op gereedschap

Stofafzuiging bij de bron is de meest effectieve methode om stof op te vangen bij het slijpen, schuren en snijden.

Example picture

Afzuigkit op gereedschap

- ✓ Alle gevormde stof wordt bij de bron opgevangen
- ✓ Hoge zichtbaarheid tijdens het werk
- ✓ Vereenvoudigd schoonhouden van uw werkplaats
- ✓ Uitgebreid assortiment voor alle soorten gereedschappen

Bevestigingskits van Nederman voor handgereedschappen verwijderen stof zeer efficiënt bij het slijpen, schuren en snijden. Deze activiteiten zorgen voor grote hoeveelheden stof. Stof in de lucht en fijne deeltjes kunnen gevaarlijk zijn voor de gezondheid van de mens en moeten aan de bron worden afgezogen voordat het de ademzone bereikt. De operator moet altijd worden beschermd tegen het inademen van stof. Afzuiging op gereedschap biedt een effectieve afzuiging en zorgt ook voor een uitstekende bewegingsvrijheid en flexibiliteit voor de operator. Bevestigingskits van Nederman kunnen op zowel elektrische als pneumatische gereedschappen worden bevestigd.
