

Hand nozzles SF51mm

Hand nozzles for high vacuum cleaning system

The hand nozzles are to be connected to the SF51 swivelling coupling

Product name	Hand nozzles SF51mm
--------------	---------------------

Hand nozzles SF51mm

Image	Description	Model
	Hand nozzle, hard brush Ø90mm, Ø51	43860001*
	Hand nozzle, soft brush Ø90 mm	43860200*
	Cone nozzle Length 250 mm, Ø51	43862001**
	Toothed nozzle width 130 mm, Ø51	43861001***
	Scraper nozzle, length: 1000 mm Ø51	43851150***
	Scraper nozzle, length: 500 mm Ø51	43851050***
	Bulk nozzle Length 910 mm, Ø51	43850001*
	Bulk nozzle for floor with handle length 1200 mm, Ø51 mm	43850150***
	Pipe nozzle (fits Ø 51 vacuum pipe) for pipes Ø100	43863001
	Pipe nozzle (fits Ø 51 vacuum pipe) for pipes Ø 200	43863100
	Steel swarf nozzle, Ø50 mm, Silenced inlet	40150030***
	Hand suction tool d51 flat	43862004

*ATEX - Suitable for combustible dust (zone 20,21,22). Ensure earthing to extraction unit. Not to be used in combustible gas atmospheres or extraction of explosive materials.

**ATEX - Suitable for combustible dust (zone 20,21,22) and gas (zone 1,2) of group IIA, IIB and IIC. Ensure earthing to extraction unit. Not to be used for extraction of explosive materials.
